Portugal and Spain Study Visit

Denizli Technical Textiles Cluster members and cluster team organized a study visit between 12-18 February 2023 to examine technical textiles production methods in Portugal and Spain and to see the R&D and innovation centres in place.

Within the framework of the study visit program realized within the scope of the Transformation to Technical Textiles Project in Denizli, Fibrenamics - Innovation Institute in Fibre and Composite Materials, Citeve Textile Technology Institute, which provides technological support and services to companies operating in the textile and apparel industry, Polymer Engineering Innovation Centre (PIEP) and the CeNTI - Nanotechnology and Smart Materials Centre, which carries out research, technology development, innovation and engineering activities in the fields of smart and functional materials and systems, were visited in Portugal.

Visiting also Tecnocampus Park, AITEX-Textile Industry Research Institution, technology centre AIMPLAS and INTEXTER-Terrassa Textile Research and Industrial Cooperation Institute in Spain, the delegation got information about new technologies and new R&D applications in technical textiles fields and discussed future cooperation opportunities.
